A Husband's Mistake.

Husbands too often permit wives, and parents their children, to suffer from headache, dizziness, neuralgia, sleeplessness, fits, nervousness, when by the use of Dr. Miles' Restorative Nervine such serious results could easily be prevented. Druggists everywhere say it gives universal satisfaction, and has an immense sale. Woodworth & Co., of Ft. Wayne, Ind.; Snow & Co., of Syracuse, N. Y.; J. O. Wolf, Hillsdale, Mich.; and hundreds of others say "it is the greatest seller they ever knew." It contains no opiates. Trial bottles and fine book on nervous Diseases free.

Bald Knob.

Weather very unfavorable for sowing tobacco seeds.

Nearly all of last year's crop of tobacco has been shipped out of this neighborhood.

Moving has been all the go for several weeks back.

Mr. R. E. Deakin's little girl is very ill with pneumonia.

Miss Lula Rodgers visited Misses Ida and Lola Rodgers Sunday last.

Mr. Merritt Stephens and wife were the guests of Mr. Willis Rodgers on Saturday and Sunday.

Rev. Mr. Reed will preach at Polk Moore's School-house Sunday at the usual hours.

Mr. Horace Harrod and wife made a flying trip to Frankfort Wednesday last.

Mr. H. W. Pulliam and family visited Mr. Thorm. Sudduth and family Wednesday last.

Mr. Nicholas Rodgers made a visit to W. H. Allison last Wednesday.

LITTLE LULA.

The Secret of Success.

J. W. Gayle, druggist, believes that the secret of success is perseverance. Therefore he persists in keeping the finest line of perfumery, toilet articles, cosmetics, drugs and chemicals on the market. He especially invites all persons who have pollution about breath, weak or hungry spells, pain in side or shoulder, oppression of lungs, dry cough, smothering, dropsy or heart disease to try Dr. Miles' unequalled New Heart Cure before it is too late. It has the largest sale of any similar remedy. Fine box of testimonials free. Dr. Miles' Restorative Nervine is unsurpassed for sleeplessness, headache, fits, etc., and it contains no opiates.

Pea Ridge.

Mr. Louis Tracy is sick.

All our farmers are plowing.

Mr. John Pierce is much better.

Mr. Milton Tracy, who has been very sick, has recovered.

Mr. John Dooley went to Lexington Monday for civil service examination.

Messrs. Will, John and Newell Pierce will each have a large melon patch this year.

Mr. Ben Sargent, who is with the Blue Grass Horse Fence Co., came down from Jessamine Sunday.

The Roundabout is fast becoming a religious paper, as witness those interesting communications of Bros. Darns and John E. Miles.

Several members of the Legislature will address our people at the school house here to-night at 7 o'clock on Farmers Alliance topics.

Bills are posted here announcing that Hon. J. C. Roberts, of Tennessee, will address the citizens at Frankfort, March 15th, 1892, on the Ocala Demands and sub-treasury scheme.

The colored coach bill, which caused so much discussion, ought to have been changed to provide separate coaches for white travelers, and then no one could have been offended. What a pity that any person would think themselves slighted by our Legislature on account of a simple mistake in the title of a bill.

Patrons of School No. 34 don't worry about school matters; it is the very best we shall get under the present system. All need change from enjoying a teacher to the furnishing of books and supplies. The whole thing is rotten. What can be said in defense of a system that allows its patrons to be victimized in purchasing books and furniture. The State ought to print and furnish books to schools at cost.

Our venerable sage has discovered a very serious error in the Roundabout which ought to be altered at once. In the list of taxable property of the county the value of stone and building material is given at \$4,000, while it is well-known that we have at least a thousand million dollars' worth, if we had it at the right place, while the county has enough at a fair

Forks of Elkhorn.

All who know Mr. Smith will agree with the Ridge Scribe that there is no clever fellow in the county.

Died—Feb. 11th, 1892, Mrs. Malinda Sheets, aged 75 years. Mrs. Sheets had ten children, nine of whom are living: Mrs. Will Tracy, Pea Ridge; Mrs. Betsy Ann Moore, Antioch; Mrs. Belle Moore, Pleasureville; John, Alice and Charlie Sheets, Indiana; Sam and William Sheets, Texas; and Willie Sheets, Iowa.

She was a constant member of the Christian Church. So kind and gentle was she in her manner that to know her was to love her.

One of the best institutions ever started in Frankfort, is the Athletic Club and one of its members' best friends is Mr. John E. Miles, whose communications in the Roundabout concerning the club have been very much misunderstood by Mr. John Smith.

All who know Mr. Smith will agree with the Ridge Scribe that there is no clever fellow in the county. Mr. John E. Miles, in the goodness of his heart, pointed out an error that was likely to bring misfortune on the club, namely admitting preachers—having in mind the ancient story of Jonah, the prophet, which all can read for themselves—noticing the danger and misfortune he brought on the ship's company which he joined, and that the misfortune which threatened them was only averted when they had thrown him overboard. Remembering this ancient preacher and Mr. John E. Miles think it is to be hoped that the club will take any preacher who may join and throw them overboard at once.

How She Became a Missionary.

"I'm doing missionary work a good deal of the time," was the reply of one of the most charming women of New York, to a friend, who asked how she busied herself. "I see by your looks you wonder what I mean by that. I'll tell you. A few years ago life was a burden to me. I had been a victim to female weakness of the most aggravating character for a long time, and the doctors failed to help me. Existence was a long, steady, terrible torture—a lingering, living death. One day I saw Dr. Pierce's Favorite Prescription advertised in the newspaper. Something in the advertisement impressed me favorably. I caught at the glimmer of hope it held out as the drowning man is said to catch at a straw. Still, I did not dare to hope. But I got the medicine, and behold the result! I feel so well, so strong, and O, so thankful, that I go about telling other women what saved me. In no other way can I so well show my gratitude to God, and to the man who has proved such a benefactor of woman. And my love for my suffering sisterhood."

Repairing of all kinds neatly and promptly executed by the Kentucky Buggy and Harness Company. 15-17.

VIOLIN FOR SALE—I have a fine violin of German make which I will sell cheap. 25-17. LOUIS HARRIS.

LOUISVILLE TOBACCO MARKET.

FURNISHED BY GLOVER & DUBRETT, LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 5,206 hhds., with receipts of 5,108 for the same period. Sales on our market since January 1st amount to 39,321 hhds. Sales of the crop of 1890 on our market to date 32,730 hhds.

The offerings of tobacco on our market have been exceedingly heavy again this week and the only change to note in the market as compared with a week ago is a slight decline in low grade new burley.

The following quotations fairly represent our market for burley tobacco:

Trash (dark) or damaged tobacco.....	\$2 00/0	\$4 50
Common trash.....	4 00/0	5 50
Common lugs not colored.....	6 00/0	8 00
Colony lugs.....	8 00/0	15 00
Common leaf.....	7 00/0	10 00
Medium to good leaf.....	10 00/0	14 00
Good to fine flue leaf.....	15 00/0	20 00

A great many of our folks attended county court Monday.

Miss Annie South is visiting friends at Stamping Ground.

Mr. Lee Triplett and mother have rented the old Kavanaugh place of Mr. Frazier, and have moved in.

Mr. L. Polk, of Frankfort, and Mrs. Eva Adams, of Louisville, were visiting Mrs. E. Trimble the past week.

Mr. Cass South has completed his house and moved in Tuesday.

For the benefit of new comers, we will state that every Wednesday night there is prayer-meeting at the Christian Church and every Thursday night at the Baptist Church.

Preaching at Buck Run Baptist Church to-morrow at 11 o'clock and 7 p. m. by Rev. Eberhart.

Miss Mattie Greenup is down on Cedar visiting relatives and friends.

The farmers are all busy cleaning up and preparing their ground for their crops.

Miss Lena Morris, of White Sulphur, visited Mrs. S. M. Burdin this week.

At the time of writing we are enjoying a genuine old winter spell, snowing and blowing at a furious rate. SARAH JANE.

Los Angeles, Cal.

Gen. W. E. Vezzie writes as follows, "With Quinn's Ointment I have removed a swelling on Hock Joint which has been there three years, have also got relief for Spints on a number of my colts and it has taken them off in every case." Best remedy on the market.

Let us Have More Light.

There is nothing more essential than eye sight, and the way to procure it, if artificial aid is necessary, is to use the best glasses or spectacles made. Dr. (Goldman), the Louisville optician, who is universally known in our city and State, and who has adapted glasses to the majority of our best citizens, has his office at the Hotel Kenyon, and those parties having weak or defective eyes, should consult the Dr. during his stay and get the required assistance. Will be in Frankfort ten days. 26.

Sale of Damaged Goods.

My entire stock of dry goods, notions, laces and embroideries, slightly damaged by smoke, will be closed out at cost. WM. O'DONNELL. 25-17.

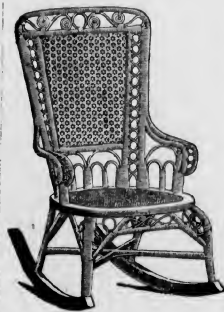

STOP A SECOND!

IT WON'T TAKE ANY LONGER THAN THAT to tell you W. L. COPPERSMITH, the jeweler, is doing the largest Repair Business of any jewelry house in Frankfort; the demand for his work is astonishing and it has even surprised his expectations. It is not necessary to look for an explanation and for these reasons I have made an equally strong hit. W. L. COPPERSMITH. 294 St. Clair street. Mar. 5-17.

New Paper.

Messrs. George A. Leo, formerly of the Owen News, and Mr. T. Sanders Orr have commenced the publication of a new paper at Carrollton, called the Carrollton News, the fourth number of which has been received. It is an eight column weekly, brim full of news, and, judging from the appearance of the paper, it starts out with brightest prospects of success.

Mrs. H. E. Wellman,

No. 2 Linn St., Janesville, Wis., under date of June 16, writes the following: Kenyon & Thomas, sire, I was confined to my bed four months with inflammation of the right ovary; had a good physician, tried almost everything, got very little help until I tried your Dr. Hale's Household Ointment, about four months ago. It has done wonders for me. I can do quite a good day's work. I have every reason to believe that it will entirely cure me. I am also using your Dr. Hale's Household Tea with good results. Sincerely yours,

Mrs. H. E. Wellman.
This great medicine is for sale at Carpenter's South Side Drug Store.

A MASONIC TEMPLE.

To Be Erected in this City in the Near Future.

At the meeting of Hiram Lodge, No. 4, on Thursday evening, steps were taken looking to the erection of a handsome building in this city, in a short time, for the use of the different orders of Masonry. The Masonic Temple Company, which was organized several months ago under a charter from the Legislature, transferred its charter to the Lodge, which body immediately subscribed for sixty shares of stock in the same, quite a number of shares were also taken by individual members, and a committee was appointed to solicit stock subscriptions until next Wednesday night, when the organization of a temple company will be completed by the election of a board of directors, who will select a president, secretary and treasurer.

An option has been obtained upon a handsome lot, upon which it is proposed to erect a handsome three story building, with two store-rooms on the first floor, with banquet hall, flats or offices in the second story, and large and convenient lodge room, chapter-room and asylum on the third floor. The building is to be fitted up with all the modern conveniences and will be an ornament to the city.

The Masonic fraternity has long been in need of a home, and the matter of erecting a building has frequently been discussed, but no definite action has ever been taken heretofore. The movement has now been put on foot by live, energetic brethren who are determined to push it through.

A Tribute to a Faithful Teacher.

At the meeting of the Board of School Trustees at which the resignation of Miss Julia R. Todd, as a teacher in the school, was accepted, the following testimonial was ordered prepared and presented to Miss Todd. It is a fitting tribute to a faithful and efficient teacher.

FRANKFORT, KY., March 4, 1912. This bears cheerful testimony that Miss Julia R. Todd has been actively engaged as a teacher in the Public Schools of Frankfort, Ky., continuously for the past eighteen years, embracing work in all grades. In each and every department she has merited the highest commendation for thorough and painstaking instruction and excellent discipline. For many years she has been at the head of the common school department, which she has conducted with entire satisfaction to the School Board, and profitable and rapid advancement of the pupils, all of which she has demonstrated that she has no superior.

The death of Prof. S. P. Browder, during a term, caused a vacancy in the position of Superintendent for four months. She was appointed to the position, and as a disciplinarian to the school of six hundred and fifty pupils was never better conducted or made more satisfactory advancement. Her resignation is in no way in accordance with the wishes of either the Board or herself, and we very much regret the necessity that compels her to change her place of residence.

We commend her as among the most advanced and thorough educators of the State, and as a disciplinarian to be absolutely the equal of the best. Socially connected with the best and oldest families in the State, a Christian lady of rare worth and

altogether worthy and capable to fill any position connected with the graded school work or private institution.

By order of the Board at regular meeting, on first Tuesday in March, 1912, and signed by the entire Board.

Cutting at the Pen.

Two convicts by the name of Chas. Price and Chas. Williams, confined in the Penitentiary here, got into a row Monday afternoon, which resulted in the latter being cut across the neck by the former. A large vein was opened by the knife and Williams lost a great deal of blood, but the wound is not considered dangerous.

Death of Miss Jeanie Watson.

Miss Jeanie S. Watson, formerly of this city, died in Chicago on Monday and the remains were brought to this city Tuesday morning for interment in the family lot in the Cemetery. The remains were accompanied to their last resting place by a large number of sorrowing friends and relatives.

Got a Tumble.

While returning home Saturday evening, Capt. Geo. W. Daniel caught his foot upon a stick, one end of which had fallen through the picket fence of Mr. Samuel R. Smith's garden, on Third street, and was thrown violently to the side walk. His knee was severely wrenched and he was so badly bruised that he was confined to the house for several days.

Four Score and Ten.

Mrs. Judith Drane, mother of Judge Geo. C. and Capt. E. M. Drane, will celebrate her ninetieth birthday today. Mrs. Drane is remarkably well preserved for one of her years, her steps being as springy almost as in her youth and her health perfect. May she live to round out a full century and her days continue peaceful and happy until the end.

Dumped in the Street.

Miss Katie Downey and her brother were returning to their home in the country from Church, Sunday morning, in a Jersey wagon, and in going over the crossing in front of Mr. M. P. Gray's hardware store, on Main street, the king bolt of the vehicle broke, letting the front axle run out from under the body, which dropped on the street. The occupants were thrown out and Miss Downey's face cut and bruised severely, but Mr. Downey escaped injury. The horse was a gentle one and did not attempt to kick, or move serious damage might have been done.

County Court.

An immense crowd was in town Monday attending County Court, and trade upon the streets was brisk, the prices being a little better than usual.

D. P. Bentley, the gifted and noted auctioneer, reports the following sales: 12 horses from \$10 to \$114; 6 mules from \$25.50 to \$90; 20 head of 2-year-old cattle, \$17 per head; 11 sheep at \$4 per head.

H. F. Showalter, auctioneer, reports the following sales: 16 head of sheep at \$4.30 per head; one stallion \$164; 16 head of cattle, \$4.30 per head; 1 horse \$22; 2 cows, \$18 and \$23; 6 horses, \$13, \$15, \$22, \$25, \$42 and \$68; 1 cow \$29; 3 head of mules, \$39, \$52 and \$65.

A Philanthropist.

Mr. A. W. Overton, seeking the street crossings and the sidewalks at the intersection of St. Clair and Main streets in such a miserable condition Tuesday afternoon, went to Councilman Darnell and induced him to have the fire department wash them off with the hose. Mr. Overton deserves the thanks of all pedestrians who have to pass that point, and it is to be hoped that Councilman Darnell or some other member of the Fire Department will have the hose repeated as often as the crossings get into as bad condition. The city is not using the water now for flushing gutters and she ought to be entitled to clean off the crossings with it.

"What makes that joy, that merriment?"
Rheumatic pains, neuralgic gout, Salvation Oil has put to rout—Salvation Oil for healing sent, Salvation Oil, the liniment.

Tuesday Night's Fire.

About one o'clock Tuesday night a fire broke out in the grocery of W. H. Blankenship, just below the toll-gate on the Lewis Ferry Turnpike, or rather the north end of Wilkinson street, which was quickly consumed and the fire communicated to the house occupied by John Breeding on the north, and thence to the residence of Luke Peeveler adjoining. As there was no fire plug that far down, the fire department could do nothing to save the property and all three houses were completely destroyed.

The buildings occupied by Blankenship and Breeding were both owned by Thos. Ballou, while Peeveler owned its home. The loss is about two thousand dollars and is about covered by insurance.

One fire plug down in that part of the city would have saved two of the buildings and would be almost complete protection to that end of town. The city should have the pipes extended and one or two plugs put in, as the residents of that section, having recently been taken into the city, are entitled to some protection from the fire fiend.

Changes in the Public School.

Owing to the resignation of Misses Julia R. Todd and Adela Schroeder as teachers, numerous changes were made in the Public School by the School Board at their meeting on Tuesday evening. Mr. J. D. Coleman, professor of Natural Science and Higher Arithmetic in Hartford College, Ohio county, was elected teacher of the High School Department to succeed Miss Schroeder. Miss Louise A. Ward was promoted to the position held by Miss Julia Todd. Miss Scottie Chinn to the grade taught by Miss Ward and Miss Ella Stephens to the grade taught by Miss Chinn. Miss Rose Crittenden was elected a teacher in the school and together with Miss Mary Browder assigned to teach the overflow from Miss Mary McEwan's room, while Miss McEwan teaches the overflow from the Kindergarten.

A Real Soubrette.

The Lexington Leader, in speaking of the people who are to take part in the production of Mr. Allan J. Darnay's new play, "A Woman's Will," in that city on the 25th inst., has this to say of Miss Sallie Theobald, of this city, who is to take the part of Dolly Meng:

Little Miss Theobald has just the mold of a soubrette, and she certainly has the manners of one, off the stage as well as on. She was made to be an actress, and her contribution to the evening's pleasure will, if all signs do not fail, be no small one. Dance? Why, her feet are set to music. And she can sing like a bird, too, and act coddling and kittenish just like the real soubrette that she is.

Boom Number.

The Carrollton Democrat comes to us this week a sixteen page paper, handsomely illustrated, with all the business interests of Carrollton written up in splendid style. It shows that the little city at the mouth of the Kentucky is a live, go-ahead place, and that her merchants have plenty of snap and business energy to make their city double its population before the dawn of another century. We congratulate Brother Gullion on his enterprise in getting out such a handsome edition.

Death of Mrs. Wingate.

Mrs. Bettie Ewing Wingate, widow of the late Isaac Wingate, died at her home on Third street Thursday morning after a lingering illness. She was a most excellent Christian lady and had been a great sufferer for more than a year past. She leaves three children to mourn her loss.

The funeral took place yesterday afternoon from her late residence, and the remains were interred in the family lot in the cemetery.

The Hancock Sale.

The sale of Mrs. L. D. Hancock, excentric of the late G. W. Hancock, took place on Wednesday and was conducted by H. F. Showalter, auctioneer. He reports the attendance large, bidding lively and prices good. Cattle brought \$12 per head and horses from \$210 to \$1,500. Other things in proportion. The elderkrans was the only one of the fine stallions put up, and was sold by Lexington parties.

Box Party.

Mr. Will. A. Lewis gave a box party at the performance of the Little Tycoon Tuesday night, in honor of the Miss Nettle Ross, of Lexington. The others present were Misses Lizzie Hudson and Margaret Lewis and Messrs. Julian Tilford and Will McClure.

An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not affected with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a codive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co.

Sight Restored.

Mrs. Logan, of this city, sister of Judge George C. Drane, returned this week from Springfield, Ohio, where she went to have her eyes treated by Dr. F. P. Bliss. The sight of one eye was entirely obscured by cataract, the other being only partially so. Dr. Bliss removed both cataracts, the operation being entirely successful, and Mrs. Logan now enjoys perfect sight.

AN INTERNATIONAL SUNDAY SCHOOL BUILDING

At the World's Columbian Exposition.

At the meeting of the International Executive Committee of the International Sunday School Convention, and at the conference of the Sunday School Workers held at Chautauque, New York, in August last, it was unanimously decided to request the Sunday School Workers of America to unite in the erection of a model Sunday School building to be erected upon the "World's Fair Ground," in connection with the "Columbian Exposition," to be held in the city of Chicago, in the year 1893.

It is proposed as follows, viz: First.—To exhibit a model Sunday School Building as an illustration of our work and as a specimen that may be copied by others.

Second.—In this building, by maps, charts, plates, tables, pictures, books, papers, etc., to show the present condition of Sunday School Work in different parts of the world.

Third.—To illustrate the growth and progress of Sunday School for example.—The beginning of Modern Sunday Schools in England; Pioneers Sunday School work in America; as conducted by the American Sunday School Union; as conducted by the different denominations; as promoted by conventions, institutions, etc.

Advanced methods of organized Sunday School Work; as carried forward by the International, State, provincial and territorial organizations, and by the different denominations; primary unions, union teacher's meeting, normal classes, and the Loyd Sunday School Army. The International Lesson System, as shown by the work of the Committee, and by the work of the publishers of Sunday School papers, magazines, quarterlies, lesson rolls, cards, pictures, books, maps, charts, banners, black boards, etc.

Practical methods in Sunday School work, teacher's meetings, and training classes; normal classes in the school; primary classes and kindergarten methods; libraries, best books and system; boys' brigades and mission bands; industrial school connected with Sunday Schools; home classes connected with the Sunday Schools; systematic house to house visitation, etc.

Fourth.—To use the building as a Sunday School headquarters and school room during the Exposition, in any possible use it as a headquarters for co-ordinate work and personal christian work on the ground.

To arrange for holding special Sunday School conferences and talks; and addressed by well-known and qualified workers in various departments of Sunday School work, and to use it for such other purposes as may be determined by the International Executive Committee.

PLANS FOR THE BUILDING.

It is proposed to offer premiums of \$50, \$25, \$10 and \$100, respectively for the best four plans for the building, the awards to be made by a committee appointed by the International Sunday School Executive Committee; the plans chosen to be the property of the committee, and to be placed on exhibition in the building.

TO PROVIDE THE MEANS.

It is proposed to raise the sum of \$25,000 for the building, and an additional sum for expenses by contributions from Sunday Schools and individuals, the collection to be made as follows:

Each Sunday School is requested to give an amount equal to not less than ten cents for each officer and teacher, and one cent for each scholar connected with the school (this is the smallest amount, and is requested to give a larger amount if able to do so.) Contributions of not less than one dollar, and as large an amount as possible, to be solicited from individuals.

Engraved certificates containing a picture of the building will be sent to each school contributing not less than the amount named above, giving

the name and location of the school and the amount given towards the building. And similar certificates will be sent to all individuals contributing one dollar or more. All contributions will be acknowledged by mail and a record of the names of all schools and individuals, and the amount given by each, will be kept in the building during the fair.

THE TIME FOR TAKING COLLECTION.
It is suggested that Sunday Schools in the United States take their collections as near February 22nd, 1892 (Washington's Birthday) or as soon thereafter as possible, so that they will be kept in the building during the fair.

That Canadian Sunday Schools holding summer sessions, take their collections as near July 1st, 1892 (Dominion Day) as possible, and schools that do not hold summer sessions, take their collections as near March 1st, 1892, as possible.

As the building committee will need all the time they can obtain for the perfection of their plans, etc., prompt action is requested from all contributors.

WHERE TO SEND THE MONEY.

The special committee appointed at Chautauque to take charge of the matter have selected Mr. R. W. Hare, a well-known business man of Chicago, (Also Treasurer of the Illinois State Sunday School Association) to act as Treasurer of the building fund. Therefore, all contributions for "World's Fair Sunday School Building" should be forwarded to:

R. W. Hare, Treasurer,
Care of R. F. Jacobs, No. 99 Washington street, Chicago, Ill.

In sending your contribution give the name of your Sunday School, the place where it is located, the denomination to which you belong, the total number of officers and teachers; the total number of scholars (all ages) and the amount of your contribution. When contributions are sent from individuals give the name and address of each person who contributes one dollar or more and the amount given by each.

CO-OPERATION SOLICITED.

The earnest co-operation of all the officers and members of the Committees of State, provincial, territorial, county, and parishes, of townships, organizations, and all pastors, officers and teachers engaged in Sunday School work, is solicited.

In behalf of the International Sunday School.

EXECUTIVE COMMITTEE.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and is made in Toledo, Ohio, by F. J. Cheney & Co. Sold by Druggists, price 75 per bottle.

Letter from Florida.

ORLANDO, FLA.,
March 7th, 1892.

Editor Roundabout:

I have been absent from home near three weeks, coming alone, some of my family have always heretofore come with me in my trips to Florida. This time, on account of sickness in the family of relatives, they could not come, but urged me to go, which I reluctantly did, after much persuasion from the different members of my family.

I left on the morning of the 17th of February, having bought a round trip ticket over the Kentucky Midland, via Georgetown to Jacksonville, Florida.

The Midland road did something for me, for which I shall ever feel under obligations to its agent and superintendent. The train on which I was to leave was a mixed one, and was due to leave promptly at 12 m. and make close connection at Georgetown with the Cincinnati Southern, but on account of the train from Georgetown, which was due just before the leaving of the train on which I was to go, being twenty minutes late, of course the train on which I was to go would be late also. I hesitated about going on this train, as I did not care to lay over ten or twelve hours in Georgetown.

The agent and superintendent said get aboard, that they would make a special run for my benefit. They got me there just in time to step on the train south bound as it was moving out.

From the start I fell in with pleasant company on the sleeper, there being two sleepers attached to the train, all on their way to Florida from a great number of States north of the Ohio river. We made the run through to Jacksonville leaving Georgetown at 1:40 p. m., and arriving in Jacksonville at 3:50 p. m. next day, on time.

The Cincinnati Southern road, without a doubt, running the finest vestibule trains South on to St. August, Florida, on which I ever rode. I have been here a number of times before, but never had so pleasant a trip as I have this time.

I formed acquaintances years ago all over Florida. The shaking of hands began in Jacksonville and kept up until the present time. This place five years ago was my headquarters, a great many of your readers will recollect the letters I wrote from this place. I left Jacksonville ten days ago, had my trunk checked for Orlando, but up to this writing has not put in its appearance. I am very short of clothing; had a few things in my valise, all heavy. The weather is getting warm and I am "giving the railroad its." They will have to do something or I will do something pretty quick.

I fell in with a party last Tuesday of several persons going down in South Florida, a few miles outside of Punta Gorda, examining phosphate lands and phosphate works. I had no intention of investing in either, nor have I now. I was for the trip to see, to learn, to see the county, the people, their habits, their way of living and how they got their living. I wish you readers to take special notice what I write, as I intend to write truthfully as I saw and the conclusion I have come to after having seen.

We left here last Tuesday evening at 2:30 p. m. got to Arcadia on the Florida Southern road in Polk county, if I mistake not, at 9:30. The next morning hired one two-horse and one one-horse vehicle, went first to what is known as the Singleton phosphate works on a stream known as Peace river. This river is fed by the lakes of Southern Florida, like the St. John's is by Central Florida, and runs in a very zigzag direction

through a large territory an empties into Charlotte Harbor, near Punta Gorda. This river, along its banks and in the bed or bottom of same and its tributaries, large and small, and most all the lands adjoining, and adjacent thereto, is filled with phosphate of different kinds, of which I can give only an outline. It is a self-evident fact that the whole State is made from the washings of the Atlantic Ocean and the Gulf of Mexico; that thousands of years ago it was inhabited by a race of people of whom we have no history and by animals the bones of which are being found from ten to twenty or more feet under the ground in immense quantities, some of which I have seen with my own eyes.

Some of these bones are petrified some in their natural form. At first I doubted their being bones, but after finding in so many places, besides finding them in the rivers, creeks and branches, I gave in. This phosphate is found, from the large bones of animals as named, down to the pebble phosphate. The latter reminds me very much of the pebbles that are found in all our creeks and branches in Kentucky.

The difference being the one in Kentucky is mostly flinty, this is of a soft nature. When ground up and the acids put in it easily decomposes and makes the highest grade of fertilizers and is being shipped to all parts of the world. Vessels are being loaded at Tampa and Punta Gorda and other points for Europe and point East, to be manufactured.

Some of these bones have been found as much as seven feet long and tapers five feet long. Evidently the bones of some animal not known to exist to-day in the world. It would make this letter too long to dwell any longer on this subject. We drove and examined lands and mines for three days, sending back each day the teams, hiring new ones every day. Stopping at night at country houses, which were made from pine trees about six inches in diameter, the bark being peeled off. The corners were notched and carried up as nicely as any log house I ever saw. They seemed to have been made by the Indians. There is rarely a chimney to a house in the portion of country we went through. In fact there is something lacking in the whole State, among the middle and poorer classes.

Two of the nights we were out there were winter frosts and the mornings were quite cool. We made fires out doors, from dead pine logs, and stood around until breakfast. The weather at home we would think nothing of, but here the change is sudden and one feels quite chilly, but nothing was killed by the frost. The people I find to be "whole souled," living in a plain, but an independent way, raising everything they live on. They have generally homesteaded forty, eighty or one hundred and sixty acres of land, planted from two to twenty acres of orange groves each. They have horses, cattle, hogs, and sheep all raised without any expense. The meat feed from the oak trees in the low lands and the roots in the ground feed the hogs the year round, never feeding them any grain. The cattle are fed on the same way. The people are very kind, giving winter and summer.

This portion of the State is the cattle country, they being shipped by the thousands almost daily to Key West, Cuba and South America. They keep but few hogs, using oxen for almost everything. We met a team after team going to their country towns with oranges. Some taking two to four days to make the trip. Some of the teams being driven by women alone, carrying their blankets, comforts or quite with them, camping out of nights even in the towns, or near the towns in the woods.

We found one morning fifteen or twenty before they got up, with their heads away from and their feet pointing to the fire. We having seen the fire, went out to get warm and to keep warm before starting, breakfast, it being one of the cold mornings spoken of. Before starting on our drive it was quite interesting to listen to these parties after they are aroused up, hearing them tell of their frontier way of living rattlesnake

and other stories, to tell any of which would spin this out too long. The counties here are very large. In this portion of the State, and only one railroad running through from Bartow Junction to Punta Gorda. On country or circuit court days they will come to their county seats forty and fifty miles, and stay sometimes two weeks or more at a time, sleeping out on the ground every night while in town. They raise the corn they use for their horses. The cattle graze only, even when worked rarely being fed on corn. Almost every farmer raises sugar cane (not sorghum), making their own molasses and syrup, the best I have ever seen since my boyhood days, when none but New Orleans and sugar-house molasses was so d in the State of Kentucky.

I say, and state it broadly, that these are the most independent people I have ever known. They seem to be poor, but they are the richest people I have ever seen. Everything they have is theirs, if they want anything they have something to sell to get it, cattle, hogs, oranges, sugar or syrup. The two latter of which they make from thirty to forty barrels per acre, getting as much as fifty cents a gallon for the syrup.

Florida is certainly a great country. I have lived to be what is known as an old man, and have seen, perhaps, more than the average man of this country, and say, knowing what I say to be true, a man can live cheaper, can live better, can live with more solid comfort, nothing to buy but his bread and clothing—the latter of which it takes but little—in the country on his farm—I mean one whose means are small. The rich man can live well anywhere.

I eat to-day ripe Japanese Plums, and mulberries from the trees, strawberries since being in the State peaches will soon be ready to ship; tomatoes are being shipped every day in large quantities.

I failed to write a letter last winter while here, or from any portion of the State. I will tell something now of what I saw last winter on the San Juan Island, one hundred and fifty miles below where I am now writing. I saw a little purple bean vine growing on the same vine which had been bearing for three years. I saw a pumpkin vine that had run and covered a large acre of ground, covering it thickly in every direction from one side, having the ripe pumpkin down to all ages and sizes in the bloom on the same vine. The same vine, in spreading, had climbed a tree and had a large number of ripe pumpkins hanging in the top.

I will state that all kind of vines in running take root. I was told, that they had to break or cut off the ends of the runners, or it would never stop. I must cut this short for it is now too long. If I can get up courage to do so, I will write again. I am down here alone, none of my family coming with me, I am lonely at times, blue, home sick, but I am trying to be it, as Florida does wonders for me. I am a new man, so far as health is concerned, but sad news comes to me from home. I, K. Hawkins, my father-in-law, one of the best and purest men I have ever known, has died. It was not unexpected. I have known him from my earliest recollection. He was the friend of my father and my mother, and I have known him, my mother, brothers, sisters and wife and children now lie sleeping in the old cemetery on the hill, all close to each other. Their spirits having gone to their resting place, their bodies awaiting the summons to be raised, to be re-united to live forever with God and Christ, the Redeemer of earth, and the dear ones gone before and to follow, to live together. So much so, that my happy thought, there is to be a reunion. For the present, good bye.

Yours truly,
John E. Miles.

They sat and under the moonlight with clasped hands, try to guess what star would be their own home when love became immortal, but soon, alas! how soon she caught a cold and they had temporarily to stop guessing. They cured her, however, with one bottle of Dr. Bull's Cough Syrup.

CURES NOTHING BUT PILES.

A SURE AND CERTAIN CURE, KNOWN FOR 15 YEARS AS THE BEST REMEDY FOR PILES.

PREPARED BY RICHARDSON-TAYLOR MED. CO. ST. LOUIS MO.

Oh, What a Cough.

Will you heed the warning; the signal perhaps of the sure approach of that more terrible disease Consumption? Ask yourself if you can afford, for the sake of saving \$50., to run the risk and do nothing for it. You know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves cough and whooping cough at once. Mothers, do not be without it. For lame back, side or chest use Shiloh's Porous Plaster. Sold by J. W. GAYLE.

Sale of Damaged Goods.

My entire stock of dry goods, notions, laces and embroideries, slightly damaged by smoke, will be closed out at most for cash.

RADAM'S MICROBE KILLER.

CURES ALL DISEASES.

Beware all diseases are the result of fermentation and decay, caused by the action of micro-organisms. By removing the cause of disease and building up the health and strength of the system, it is the one to use.

RADAM'S MICROBE KILLER is nature's remedy, and is the most potent germicide ever given to mankind, hence the spurious imitations which follow in the path of its wonderful cure of Consumption, Catarrh, Leptid, Indigestion, Rheumatism, Bore, Blood, Skin and all other diseases which are quick and permanently cured by this never failing compound which has done more for suffering humanity than all the prescriptions of poisons, drugs, nostrums, so-called proprietary medicines, and all other remedies which have ever been used, except without a successful system, and its superior results stand at the front of modern medicine.

The Original and Old Reliable Microbe Killer, a palatable remedy which cures diseases of the throat, chest and acting like the system in a natural and healthy condition. Investigate its merits of this wonderful health giving discovery, which has saved the test and cured thousands of all manner of diseases, but beware of all other so-called germ or microbe killers, which are often used to sell their worthless worthless nostrums, and which will stand at the front of modern medicine.

DOWN, DOWN!

Down come the prices from every article throughout our house. We want to have a general clean up and are offering some reliable merchandise at prices that ought to awaken an echo in the pocket of every prudent purchaser. You are well aware that prices standing alone mean nothing; it is our standard quality standing behind our extremely low fig res that wins trade. In our establishment truth stands erect with quality in one hand and low prices in the other.

Sages and wise men, from Solomon down, tell us that economy is the basis of wealth, therefore patronize,

Miss Cynthia Thompson is visiting her sister at Bagdad.

Miss Shaw has come to reside in our town. Miss Shaw is a very nice, polite, young lady of four days.

Mrs. Lizzie Miller, aged 87, has been quite sick but is much better, and we hope may yet live for many years to come.

Messrs. Ed and Daniel Dickey were in Louisville last week with tobacco. They report the market crowded, and prices very low.

We have always thought that when one has nothing to say one had best not say it, hence we have been for some time silent.

Mr. Montague and family have moved into the late residence of Dr. R. W. Thompson. Mr. Montague is a nice gentleman, his wife an accomplished lady, with very bright, intelligent children and we commend them to the neighborhood.

Our wheat crops are in splendid condition, promising a large yield. Considerable plowing for corn has been done, and the handsome prices realized during the early part of the present season, will prove but a forerunner of large average the coming season. The gardeners are making but little progress this far.

The columns of newspapers are open to all advertisers, and we usually avoid the commendation of any special business or firm, but so very pleasant has been our relation with the drug firm of J. W. Gayle, corner of Market and Ann streets, that we deem it no less than a duty to commend them to the public patronage.

Their stock is full and the proprietor and his employees are most pleasant and accommodating.

Our government is fast growing toward an autocratic despotism, and it becomes every lover of liberty to check, as far as he may, this tendency. The proposed fish law, forbidding the taking of fish with seines, nets, &c., has this tendency and should be resisted. In autocratic England none but the wealthy noblemen can take fish or game, and it seems that here long none but the leading children of wealth will have any privileges here. The working man and the industrious farmer or mechanic who has but a few hours to spare, will never get a fish, while those who never have anything else to do will take many. It is very amusing to hear people talk of stocking our streams, exhausting the supply, &c. Why the spawn of a single piscatorial mother produces from 100,000 to 1,000,000 germs. Exhaust the supply? Boah! The poorer classes are not so easily deceived, and any Legislator

who supports this law taking from them the God given right to dominion over the fishes of the sea and the fowls of the air, will hear from them in the future. You take from us the right to take fish and game for food, you fill the country with labor-saving machinery and we become unemployed and hungry. What must be the enforced result if you continue to take step after step to deprive us of the means of living? Let the present state of affairs in Berlin and Leipzig answer.

In the issue of the ROUNDABOUT preceding the last, was an article from a gentleman professing to have been for many years in the tobacco trade. The author labors very hard to show the fair dealing of the warehouseman toward buyer and seller. He would have us believe the warehouseman possessed of sadistic impartiality. He says, to equalize the expense of marketing the tobacco, the buyer and seller are charged two dollars each per hoghead. He forgets, however, that the buyer gets in return for his two dollars, the hoghead (worth \$150), while the seller furnishes the hogheads and sample, pays his two dollars and gets nothing in return. Had the gentleman really desired to throw light upon his subject he would have remembered these facts, but not so; he desired to mislead and deceive, and in his effort to do so, he has had the tobacco growers to regard him as a fool or a liar. BULLDOGS.
